

Code 3[®] Intrepid Series Dash LED

CODE 3[®]

The Code 3[®] Intrepid Series Dash LED uses state-of-the-art TriCore[®] technology LEDs to send a bright, clear signal. The extraordinary visibility and off-angle performance that TriCore lighthoods deliver creates a signal that can be seen at far greater distances than any other current lighting technology. The new flared visor allows a much greater off-angle light signal, particularly useful when approaching intersections. The new locking swivel feature allows universal mounting to fit the curve of any windscreen.

Design Features

- Red, blue, amber or white LEDs available
- Split colour combinations: amber/red, red/blue, white/red, blue/amber, blue/white, amber/white
- 40 user selectable flash patterns
- 5 year warranty on TriCore lighthoods
- Multiple mounting options including deck mount bracket and windscreen suction cup mount

Specifications

- Dimensions: W 171.5mm x H 61mm x D 127mm
- Meets all applicable SAE and ECE 65 specifications when properly configured
