THE NEXT GENERATION OF THE LEADING STABILISATION AND PROTECTION SYSTEM.

- Simple, versatile and safe design for easy and quick setup
- High strength Aluminium construction for maximized load capacity, even when the telescope is fully extended
- Automatic rewinding of the tensioning strap (already known from our RQL tensioning straps)
- Improved head and guide piece for more stability and grip
- Direct pullout of the telescope with automatic locking mechanism
- More flexible length adjustment due to more locking positions in the telescope
- Intuitive operation - all controls in striking red
- Also available as XL version with more length and load capacity!
