

# PMP SWIVEL PULLEY

**InterFire**  
AGENCIES

Our new Prusik-minding pulley (PMP) is ideal for high anchor points or tripod use. The rotating swivel aligns the rope with the direction of the pull. Its stainless steel sheave can be used with either rescue rope or wire cable. By combining the swivel with the pulley, overall system length is minimized, increasing travel. The patented pivoting side plate allows the rope to be quickly inserted.

- Stainless steel sheave allows use with wire cable
- Prusik-minding side plate opens without having to disconnect the pulley from the anchor
- A double-detent button prevents accidental opening of side plate
- Sealed ball bearings provide maximum efficiency

In addition to technical rope rescue applications; for the rope access equipment cache or rope access hardware kit in need of rounding out or in need of enhancement, the PMP Swivel Pulley can be a quality rope access gear addition.

PRODUCT WEIGHT	TYPE	SHEAVE TREAD SIZE	SHEAVE	COLOUR	NFPA RATING	3 SIGMA MBS
(320 G)	SINGLE	38 X 13 MM	STAINLESS STEEL	BRONZE / SLATE	GENERAL USE	43 KN
