## 5050 Series Warning Lamps

### Grille Mounted Design

The CD5050 Directional LED Warning Lamps are bright and versatile warning lamps which are suited to a wide variety of applications. Their shallow profile makes them ideal for installation in vehicle front grilles with minimal modification to the vehicle. This makes them suitable for fitment to cars, vans, trucks and any vehicle with limited forward facing flat surfaces, they also lend themselves to covert installations. They feature wide angle optics and multiple flash patterns, including synchronisation with other units for simultaneous or alternating operation. CD5050T dual-colour modules feature 18 LEDs and have 12 flash patterns.

#### Model

PART NO.	COLOUR	LENS	VDC	FLASH
CD5050TRC		TINTED	10-30	12
CD5050TBC		TINTED	10-30	12
CD5050TRB		TINTED	10-30	12

#### Design Features

- Eighteen high-intensity LEDs.
- ECE R65 light output.
- Multiple heads are synchronisable.
- Colourless when not illuminated.
- Operating Voltage: 10-30VDC
- Dimensions 25mm x 136.3mm x 15mm

#### Flash Patterns

1. Single Flash 75 FPM
2. Single Flash 375FPM
3. Double Flash 75FPM
4. Double Flash 120FPM

5. Triple Flash 75FPM
6. Quad Flash 75FPM
7. Quad Flash 120FPM
8. Modulation

9. 2 Double, 2 Quad
10. 4 Single, 2 Triple
11. 1 Double, 1 Triple, 1 Quad
12. Steady Burn
