CODE 3®

WARNING LIGHTING | DIRECTIONAL LIGHTING | LIGHTBARS | WHITE LIGHTING | REVERSING SAFETY

5 YEAR NO-HASSLE WARRANTY

LIGHTBARS

SAE CLASS 1 | R10 | RCM | CISPR 25 Level 5

16 Series SPECTRE® Dual/Quad Colour LED Lightbar

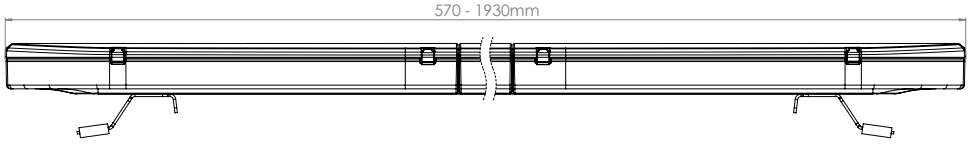

The Code 3 16 Series SPECTRE® lightbar delivers a powerful, low-profile solution in emergency vehicle warning technology. Fully integrated with the C3DNA system, it enables seamless synchronisation across all vehicle lighting without a master controller. High-intensity output in Quad-colour red, blue, white, and amber, and Dual-colour white and amber, with optimised amber suited for commercial use. With multiple lengths, flexible module options, and compatibility with existing mounts, SPECTRE® adapts effortlessly across fleets. Built to strict SAE Class 1, RCM, ECE R10 and best-in-class CISPR25 Level 5 standards, it ensures reliable performance and is backed by a 5-year warranty.

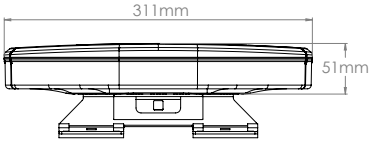

Design Features

- Full C3DNA integration
- High-output, wide coverage
- Flexible configurations
- Durable, multi-vehicle fitment

Model Options:

LENGTH	COLOUR	LENS	VDC	MOUNT
570mm	R B A W	TINTED	12-24	Standard
570mm	A W	TINTED	12-24	Standard
910mm	R B A W	RED/TINTED/BLUE	12-24	Standard
910mm	A W	TINTED	12-24	Standard
1110mm	R B A W	RED/TINTED/BLUE	12-24	Standard
1110mm	A W	TINTED	12-24	Standard
1200mm	R B A W	RED/TINTED/BLUE	12-24	Standard
1200mm	A W	TINTED	12-24	Standard
1320mm	R B A W	RED/TINTED/BLUE	12-24	Standard
1320mm	A W	TINTED	12-24	Standard
1520mm	R B A W	RED/TINTED/BLUE	12-24	Standard
1520mm	A W	TINTED	12-24	Standard
1730mm	R B A W	RED/TINTED/BLUE	12-24	Standard
1730mm	A W	TINTED	12-24	Standard
1930mm	R B A W	RED/TINTED/BLUE	12-24	Standard
1930mm	A W	TINTED	12-24	Standard

C3DNA is explained further on the next page.

CODE 3®

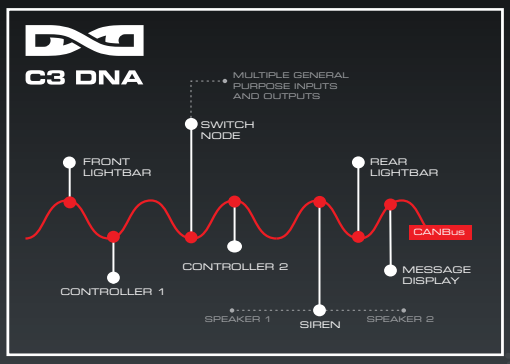

CODE 3 DNA
DISTRIBUTED NETWORK ARCHITECTURE

WARNING LIGHTING | DIRECTIONAL LIGHTING | LIGHTBARS | WHITE LIGHTING | REVERSING SAFETY

DISTRUBUTED EMERGENCY WARNING SYSTEM

FLEXIBLE • INTELLIGENT • COHESIVE

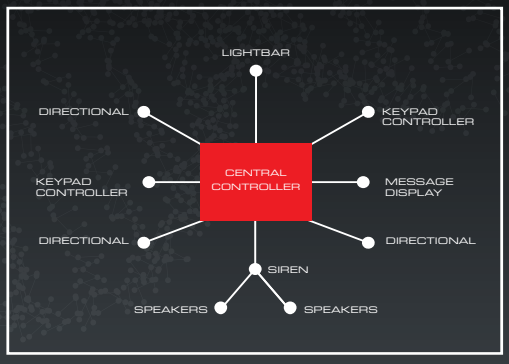

DISTRIBUTED SYSTEM

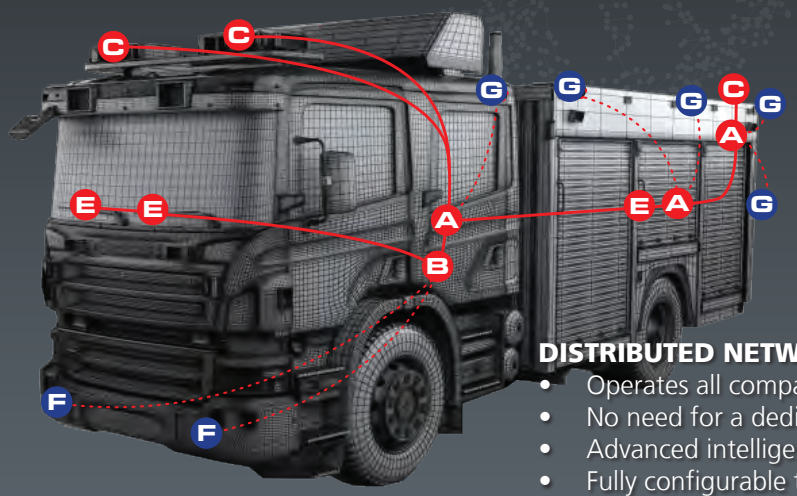

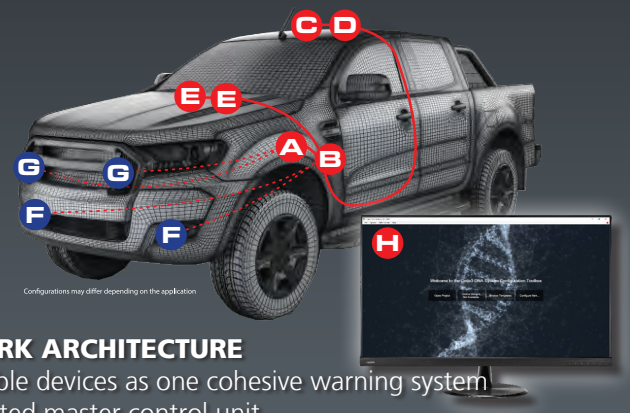

VS

The Code 3 Distributed Network Architecture (Code 3 DNA) allows all compatible devices on a vehicle to operate as a single, cohesive warning system, without the need for an expensive dedicated "master" control unit commonly required by conventional centralised systems.

CONVENTIONAL CENTRALISED SYSTEM

DISTRIBUTED NETWORK ARCHITECTURE

- Operates all compatible devices as one cohesive warning system
- No need for a dedicated master control unit
- Advanced intelligence for maximum flexibility
- Fully configurable to user requirements
- Customisable message display, flash patterns, and lightbar layout

A

Switch Node
- Battery management and run-lock
- Interface for Code3 directional lights
- Allows synchronised flash patterns

B

Pursuit Siren
- Embedded LF "Banshee" tones
- Supports simultaneous wail/yelp (mix)
- Variety of horn input devices

C

Pursuit & Spectre Lightbars
- Industry leading light output
- Low profile wide coverage lighting
- Flexible configurations
- Multi-vehicle fitment

D

M5 Message Display
- Touch controller with OLED screens
- Latest surface mount LEDs Custom optics
- Variety of horn input devices

E

Controllers
- Kepad controllers multiple functions
- Customised, programable buttons
- Backlit RGB colours

F

DNA Compatible Speakers
- Low frequency compatible
- SAE J1849 certified
- Compact low profile

G

DNA Compatible Directionals
- Unlimited flash pattern selection
- TIR and linear optical technology
- Surface, flush or hood mounting

H

Config Toolbox Software
- Distributed across C3DNA elements
- Unified system control
- Configurable to user requirements
